EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Young on January 4, 2005.

The application has been amended as follows: Claims 7-13 and 21 have been cancelled.

In paragraph [0001], line 1, the phrase "priority of" has been changed to -- benefit of -- in order to correct the cross-reference to related applications as indicated should be done by the applicant on page 1 of the transmittal letter dated April 4, 2002.

In response to the remand by the Board for obviousness considerations as indicated on page 6 of the decision, it is the examiners' opinion that there is no obviousness issue since all the prior art shows flaps at least on opposing edges of the unit and the Board indicated that the applicants claims excluded any reference which has flaps on any other edge then the first edge (i.e. only one flap on one edge) and there is no motivation within the prior art to exclude flaps that are already taught as being there.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald Loney whose telephone number is (571) 272-
